Company

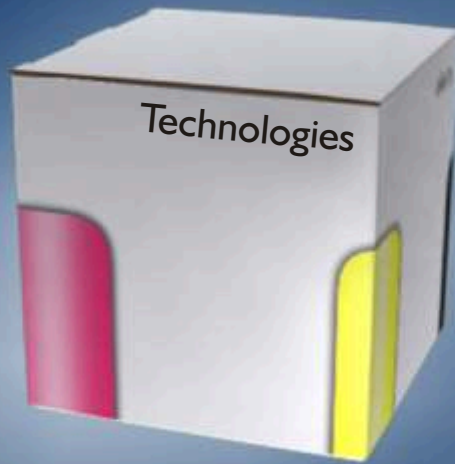

asterias®

*The company was founded in 1993 as a family company. The team commitment resulted in the present form of the company. Our company employs about 50 people. We have our own well situated premises. Asterias is one of the region's largest printing houses offering typography services.*

*We are in possession of modern equipment and employ a reliable team of professionals. Providing a wide range of services, we help to promote our clients' products and to gain a better access to their clients. We are flexible and accept short order deadlines. We can also offer competitive prices.*

*We have been awarded Gazela Biznesu [Gazelle of Business] prize and Wielka Mała Firma [Great Small Company] prize.*

## Design unit

*Our design unit performs any actions related to the construction of packaging and advertisements. We start from the analysis and the definition of production technology. The next step is the adjustment of form and structure. A prototype is always designed and produced prior to the project realization. We use a large format plotter for that purpose.*

DTP studio

*Experienced employees work in our DTP unit.  
That is why we are able to fulfill even demanding  
projects requiring extensive encyclopedic knowledge.  
We work with a use of MAC and PC platforms.  
We have a wide range of graphic software.  
Our professional team is waiting for your orders.*
